

LANDICE

From treating the most acute neurological or post-operative conditions, to training world-class athletes, the Landice Rehabilitation Treadmill is the world's most versatile solution for rehabilitative, medical, and sports conditioning therapy.

Five-Year Commercial Warranty

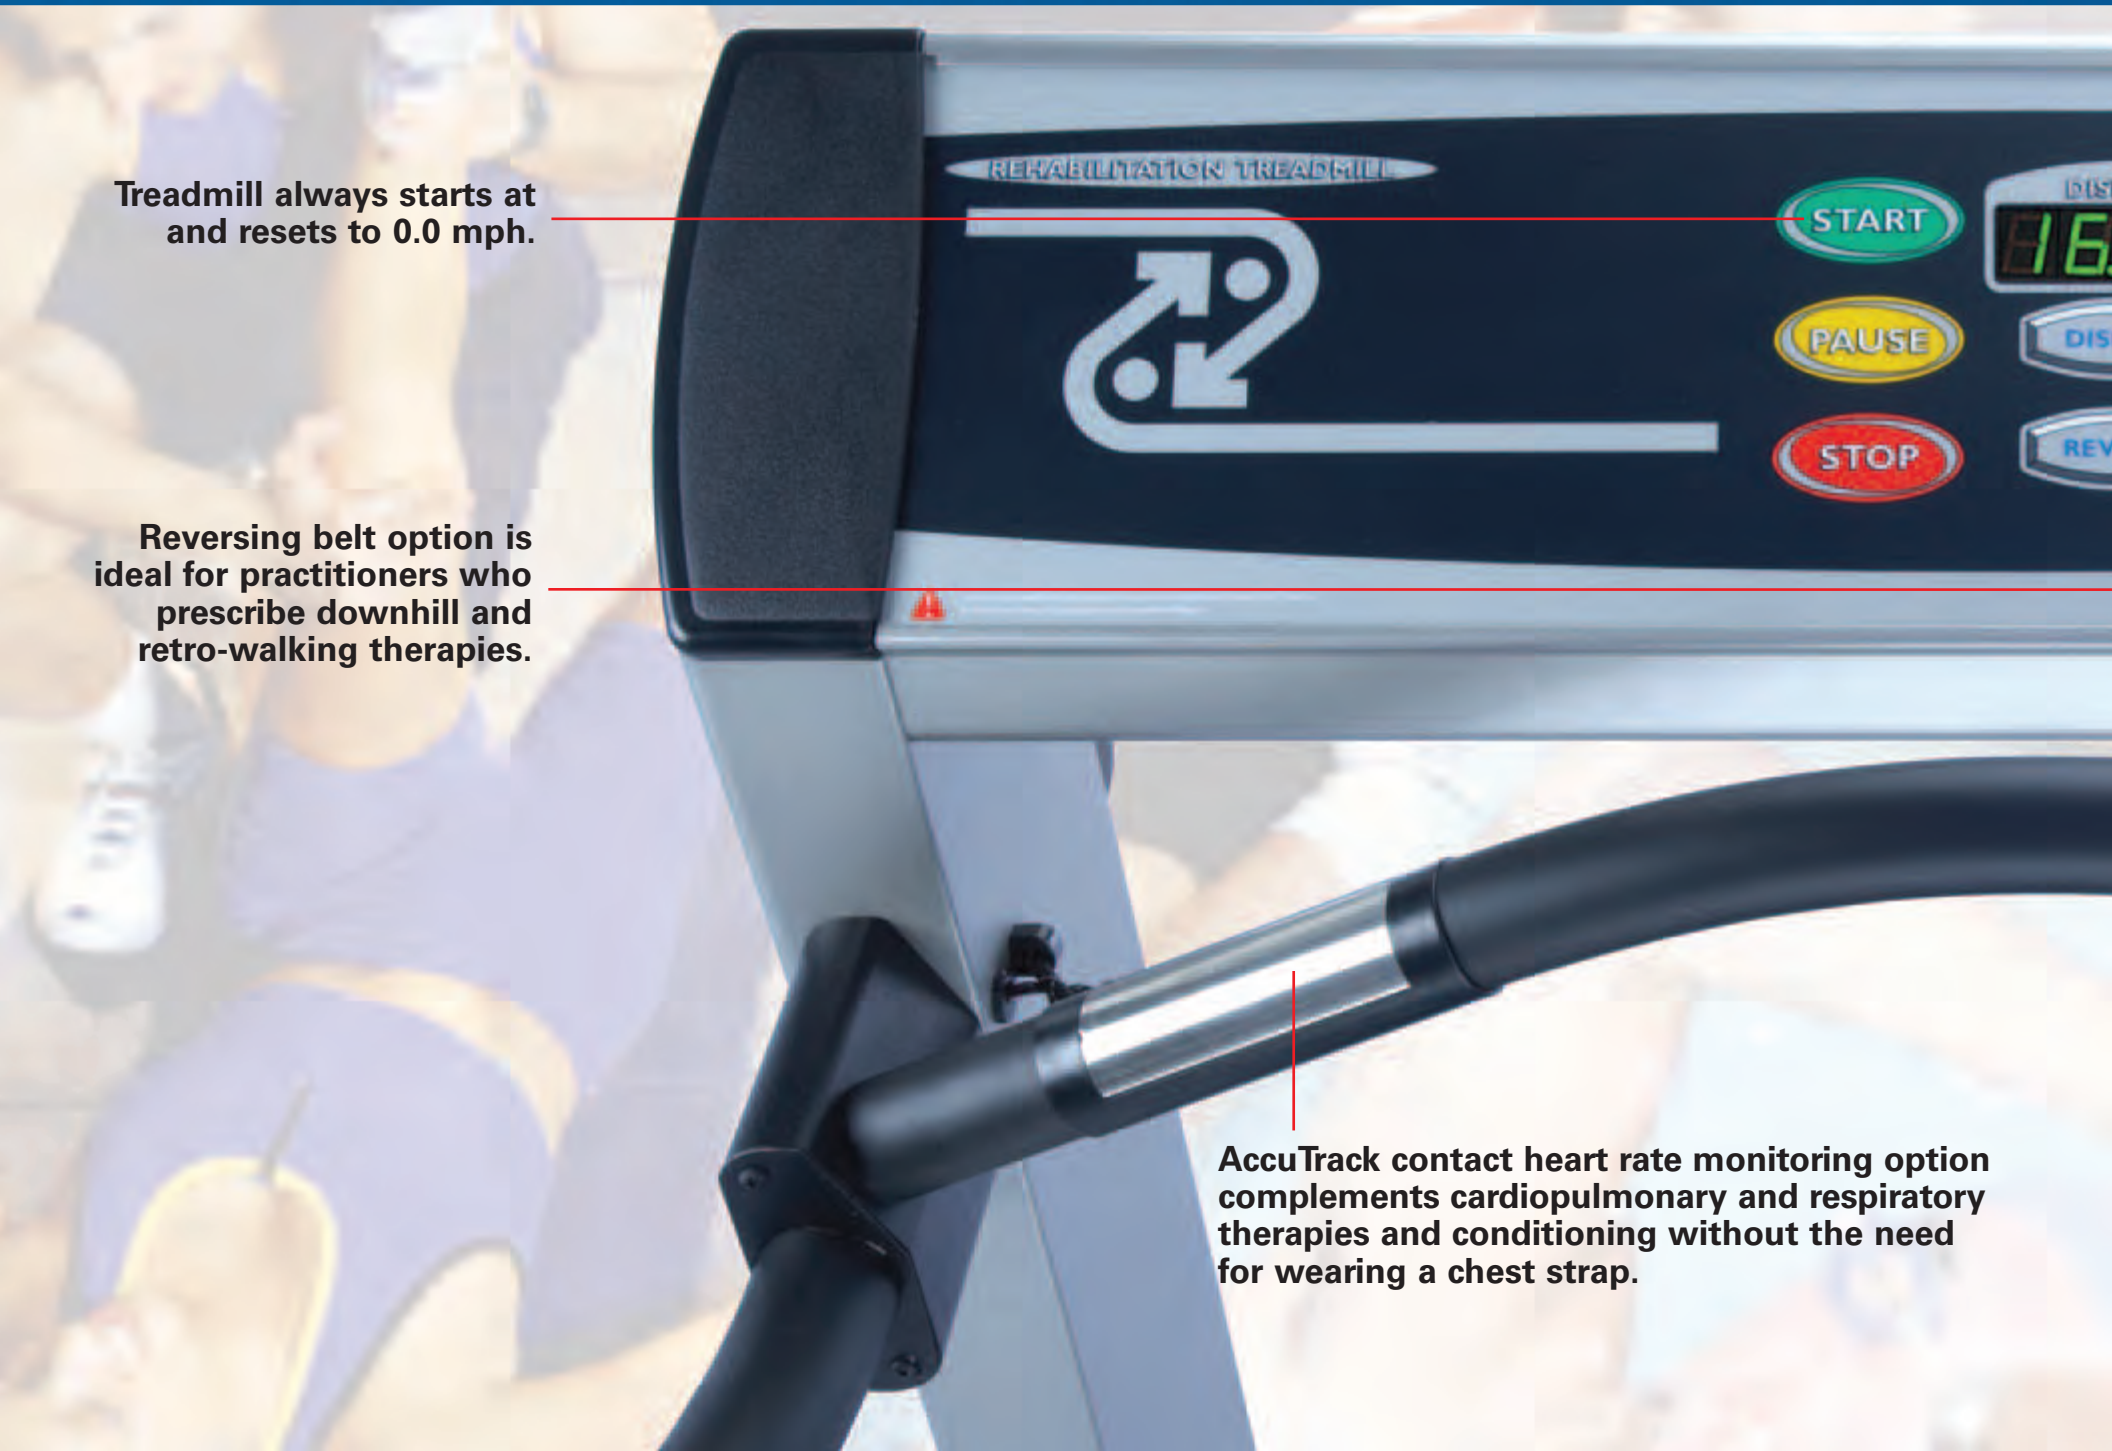

Rehabilitation Treadmill

PACKED WITH REHABILITATION

Treadmill always starts at 0.0 mph and resets to 0.0 mph.

Reversing belt option is ideal for practitioners who prescribe downhill and retro-walking therapies.

AccuTrack contact heart rate monitoring option complements cardiopulmonary and respiratory therapies and conditioning without the need for wearing a chest strap.

ATION SPECIFIC FEATURES

15% grade electric elevation with variable elevation over-speed protection

Ultra high-torque drive moves users weighing up to 400 pounds at a true 0.1 to 12.0 mph.

Patient-attachable safety lanyard (treadmill stops when lanyard is pulled)

Remote start-stop switch option is ideal for modalities in which a therapist must manipulate the patient's legs while remaining in control of treadmill operation.

L7 Rehabilitation Treadmill Specifications

- Zero starting speed
- 3 HP continuous-duty motor
- Actual 0.1 to 12.0 mph speed range
- Ultra high-torque drive
